

SDG#7

S1E 15 Kayo Kyoku

S1E 38 Seri Fujimatsu

Super Duper girls!!

What is SDG?

- Sustainable Development Goals

• Initiatives by the United Nations to solve problems all around the world.

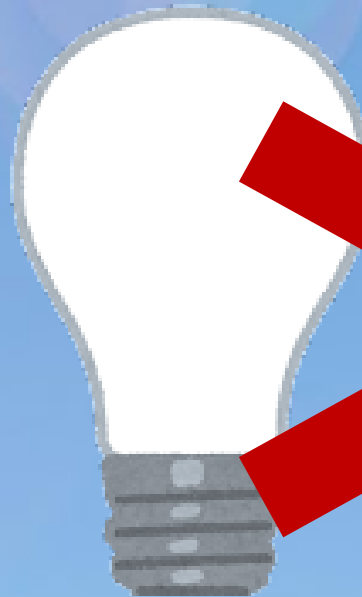

Ex.) Poverty, education, gender, health, etc.

- 17 SDG goals

About SDG #7

Affordable and Clean Energy

Inefficient fuel sources

People around the world use **unhealthy** and **polluting** fuels.

40%

Using fossil fuels takes **more time** and **energy** for simple tasks.

Problems in countries

Use a lot of fossil fuels,

- Pollute the environment
- Unsafe

Leads to **global warming**

Other problems

Light up houses

Unable to compete
with other nations

Wood to heat fires

Goals for SDG #7

Fossil fuels
(gas, wood, coal...)

Renewable fuel sources

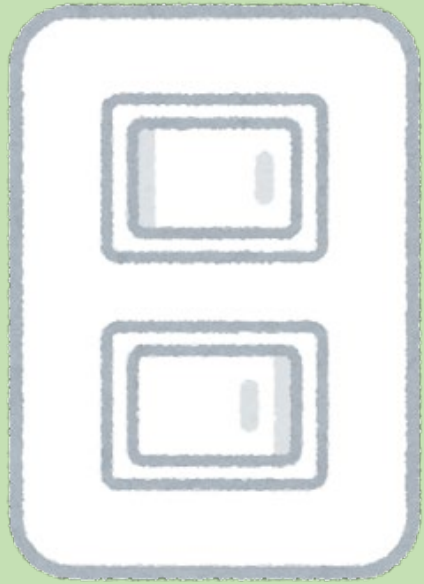

Ex. Sunlight, wind turbines...

Renewable fuel sources are **cleaner** than fossil fuels and in the long run they are also **cheaper**

➔ solve **global warming**

Things we can do to help

Turn off lights

Turn down air conditioning

Use public transportation instead of driving

Government

Japan : technologically advanced country

Assist other nations to **develop** and **maintain**
technologies

Thank you for listening!

7 AFFORDABLE AND
CLEAN ENERGY
